

Workshop programme

Wednesday 25 May 2011

11.00-12.00 Adrian Baddeley, CSIRO and University of Western Australia:

The strange history of spatial logistic regression

12.00-13.00 Lunch (NOVI canteen)

13.00-13.30 Andrew du Plessis, AU-math: *Digital geometry and reconstruction*

13.30-14.00 Aasa Feragen, KU: *Towards a theory of statistical tree-shape analysis*

14.00-14.15 Break

14.15-15.00 PhD and postdoc projects with main base at AU-math – activities and plans

15.00-15.15 Break

15.15-15.45 Jens Ledet Jensen, AU-math: *My Odyssey through FRET data*

15.45-16.30 PhD and postdoc projects with main base at KU – activities and plans

16.30-17.30 Bus to hotel and check-in

17.30-18.30 Walk in town (we meet at the lobby of Cabinn)

18.30- Dinner at "Mortens Kro" (www.mortenskro.dk)

Thursday 26 May 2011

09.00-09.30 Karl-Anton Dorph-Petersen, AU-bio: *Minicolumns*

09.30-10.15 PhD and postdoc projects with main base at AU-bio – activities and plans

10.15-10.30 Break

10.30-11.15 PhD and postdoc projects with main base at AAU – activities and plans

11.15-12.00 Administrative meeting with the following agenda

1. The next internal CSGB workshop
2. Future external scientific workshops, courses etc. arranged by CSGB: overview of planned activities and new suggestions
3. The CSGB homepage: comments and suggestions

4. CSGB publications, including annual report
5. Appointments
6. Long term visitors
7. Mid-term evaluation
8. Relation to the imaging community in Denmark
9. The contact to the Karlsruhe stochastic geometry group
